

# Eskola Roofing & Waterproofing Expands Reach through Acquisitions, New Branches

## Leading Provider of Commercial Roofing and Waterproofing Services Doubles Service Area in Under a Year

Morristown, Tenn. — [Eskola Roofing & Waterproofing](#) (“Eskola”), a leading provider of commercial roofing and waterproofing services with a diversified customer base centered on institutional customers such as educational, infrastructure, manufacturing, government and healthcare facilities, has joined forces with two like-minded companies and opened four additional branches across new markets, more than doubling its service area in less than a year.

Founded in 1972 by the Eskola brothers' father and currently led by [CEO Jon Eskola](#), Eskola acquired Best Environmental Systems Technology, Inc. (“B.E.S.T.”) in Raleigh, NC and Roof Control Services with branches Orlando and Jacksonville, FL, within the last six months.

Both teams have been seamlessly integrated into the Eskola family. These strategic moves enhance Eskola's service capabilities, delivering unparalleled expertise to a broader clientele.

Jon Eskola

"We are excited about these new partnerships. By joining forces with B.E.S.T. and Roof Control Services, we are combining our strengths to deliver even higher service excellence to our clients," said Jon Eskola.

"Eskola's commitment to their customers, employees and high professional standards made this partnership a perfect fit for our company," said Todd Griffin, Roof Control Services. "We explored several opportunities but at the end of the day, Jon and his team were the clear choice for my company. We are excited to contribute our expertise as we collectively move forward to new heights."

"The Service, Safety and Quality of Eskola matched our core focus. The additional support and resources they bring in these areas will allow us to offer even more to our customers," said Grey Pardue of B.E.S.T.

Eskola's expansion initiative extends beyond partnerships. The company has established new branch offices in North Georgia, Greenville/Spartanburg, Charleston, and Charlotte. With existing Tennessee branches in Morristown, Knoxville, Nashville, and Memphis plus the company's branch in Lexington, KY., the company's geographic footprint spans a large and connected area.

Eskola aims to continue to expand its reach throughout the Southeastern United States, focusing on Alabama, Georgia, Florida and Virginia. The company is actively seeking partnerships with founders and contractors who share a customer-centric approach to commercial re-roofing and waterproofing.

With a portfolio boasting numerous successful new and re-roof installations exceeding on average a hundred thousand square feet, the company's professional management team brings decades of industry expertise to the table, assuring clients of their dedication to the highest standards of professionalism.
